

c) Ransomware. Michael Lore explained the work with the legislative committee on this issue. He drew attention to a Michigan statute on the subject and also a compilation of ransomware attacks on state and local government entities and whether ransom was paid.

d) Net neutrality. Articles in the media have commented on the cybersecurity implications of net neutrality. Mr. Levin drew attention of the subcommittee to the recent DoJ suidre(o72afawu)ahc5wainst California in which the D(o72pa)-5(rt)-11.2(ment a)4(r)-6(ahc5wue)4(recommendation is Marylawuigh into the legal action on the side of California in order to protect the proahc5wress that states have made in the area of cybersecurity.

e)
